

Clothes Swap

1. Open BP_Player_Sa → **Event Graph**.
2. **Drag the** OutfitSwap **component** from the Components panel (left) into the graph. This drops a reference node to it.
3. Drag off the OutfitSwap reference → search Swap Outfit → place it.
4. On the **New Body** input pin of Swap Outfit, click the dropdown → pick your **fully-clothed Sa skeletal mesh** asset. (It's an asset picker right on the pin.)
