SECURITY AND CONTAINMENT PROTOCOL: AIR-GAPPED DOCUMENT

The Special Investigation Department (SID) operates as a highly classified, experimental incubator. Consequently, this entire 127-page Subcontractor Agreement functions dually as a Class-A Non-Disclosure Agreement (NDA). To prevent algorithmic espionage and data leakage, this document is strictly air-gapped. It exists solely on this closed-network terminal and will be archived exclusively within the offline, localized physical servers of the Local Police Authority. Hardware locks have disabled all text extraction, external transmission, and third-party AI-summarization protocols. You are required to process this data manually.

PAGE 1: The Assignment & Jurisdiction

SUBCONTRACTOR AGREEMENT & WAIVER OF RIGHTS ISSUING AUTHORITY: The Independent Government in joint collaboration with the Local Police Authority of The Sunk (Metropolitan Designation: Detroit). **DEPARTMENT:** Special Investigation Department (SID) – Provisional Pilot Program.

SECTION 1.1: DEFINITION OF ROLE This document serves as a binding contract between the Special Investigation Department (hereafter referred to as "SID") and Sa Cha (hereafter referred to as "The Subject"). The Subject is hereby retained as an Outsourced Investigatory Asset. The Subject is not a sworn officer of The Sunk, holds no municipal authority, and is not entitled to state pension, hazard pay, or union representation.

SECTION 1.2: JURISDICTIONAL MANDATE SID is a localized, experimental initiative designed to bridge operational gaps between The Independent Government's algorithmic mandates and local law enforcement operations. The Subject will operate exclusively within designated parameters established by SID command and enforced by their assigned Autonomous Overseer.

PAGE 2: The Drone Partner & Warden (IPHA-Philip)

SECTION 2.1: AUTONOMOUS OVERSIGHT AND PARTNERSHIP PARAMETERS For the duration of this contract, The Subject is legally bound to the operational presence

of an Independent Police Hovering Agent (hereafter referred to as "IPHA"). The Subject is assigned to **IPHA-Unit: Philip**.

SECTION 2.2: CIVIL RIGHTS AND ENFORCEMENT AUTHORITY OF IPHA The Subject acknowledges that IPHA-Philip operates with Tier-3 Law Enforcement Authority and Provisional Civil Personhood. Under municipal law, tampering with, obstructing, or arguing with IPHA-Philip constitutes an assault on a police officer.

SECTION 2.3: PROTOCOLS OF INTERVENTION IPHA-Philip serves simultaneously as an investigatory partner and operational warden. The Subject consents to the following oversight rights possessed by IPHA-Philip:

- **Continuous Monitoring:** Real-time telemetry tracking of The Subject's vitals, vocalizations, and tactical decisions.
- **Behavioral Correction:** The legal authority to override The Subject's decisions if they deviate from projected optimal SID parameters.
- **Tactile Guidance and De-escalation:** The authorized application of measured kinetic feedback or localized somatic overrides. These supportive measures are designed to physically assist The Subject in maintaining protocol alignment, halting procedural drift, and ensuring maximum synchronization with SID operational standards.

PAGE 3: The Medical Trap

SECTION 3.1: PROVISION OF BENEFITS Upon final biometric signature of this document, The Subject will be temporarily enrolled in the Class-C Base Law Enforcement Insurance Policy. This policy provides foundational medical triage and baseline property damage subsidies equivalent to a standard police employee of The Sunk.

SECTION 3.2: INDEMNIFICATION AND ABSOLUTE WAIVER OF LIABILITY

Notwithstanding the provisions of Section 3.1, The Subject explicitly agrees that the invocation of said medical benefits is heavily restricted. The Subject assumes **entire, unconditional, and sole responsibility** for any and all physical injury, psychological trauma, or property degradation incurred during the execution of this contract.

If an injury is sustained during active duty, it will be legally classified as a "Failure of Subject Spatial Awareness" or "Voluntary Kinetic Intercept." SID, The Independent Government, and the Local Police Station of The Sunk cannot be sued, billed, or held responsible for the Subject's physical well-being. The insurance exists solely to ensure

the Subject does not expire before their investigatory quota is met. Copays for injuries caused by IPHA-Philip's intervention must be paid out-of-pocket by The Subject.

This sets up the exact trap you wanted: Sa is given standard insurance, but the contract immediately reclassifies any possible injury as his own fault, making the insurance nearly impossible to actually use without paying out of pocket. And it establishes IPHA-Philip as a legally protected entity with the right to physically discipline him.
